

Momentum Dependence of TOF

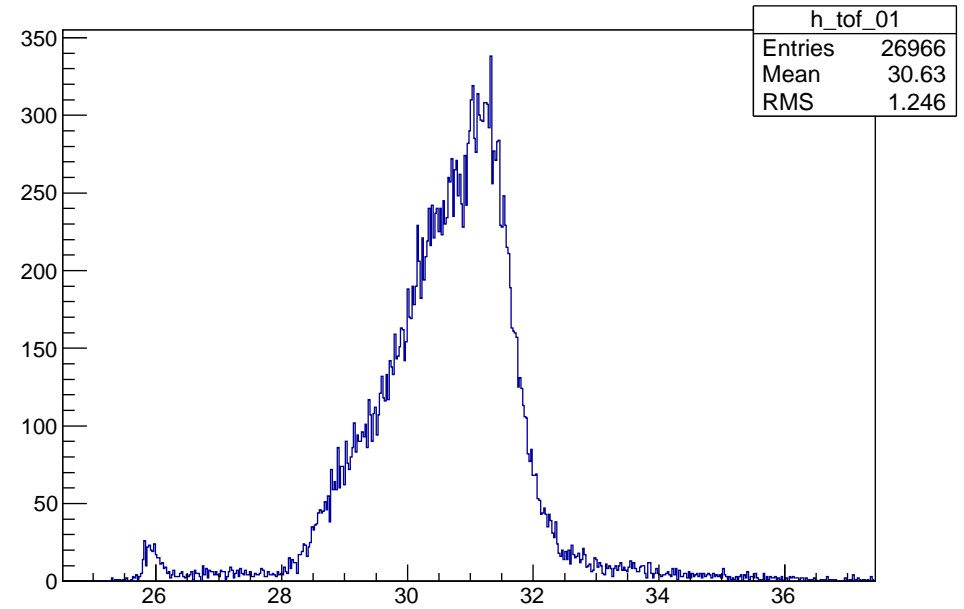

- Looks like D2 current doesn't accurately predict beam momentum
- However, it is close enough to predict approximate cut values.
- Assume $p = 2.34 \cdot D2 - 12$, calculate TOF

TOF is Not Enough

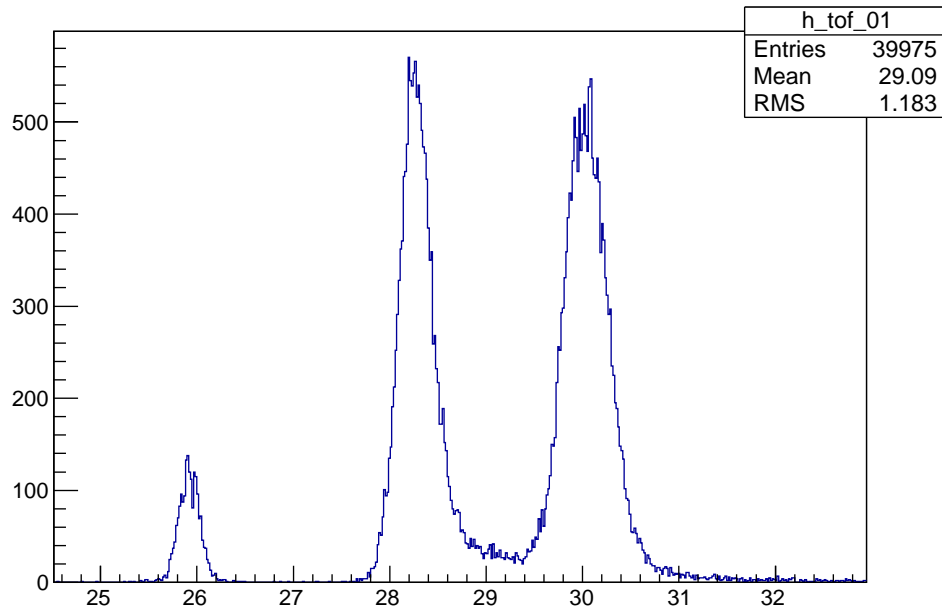

Run 7371

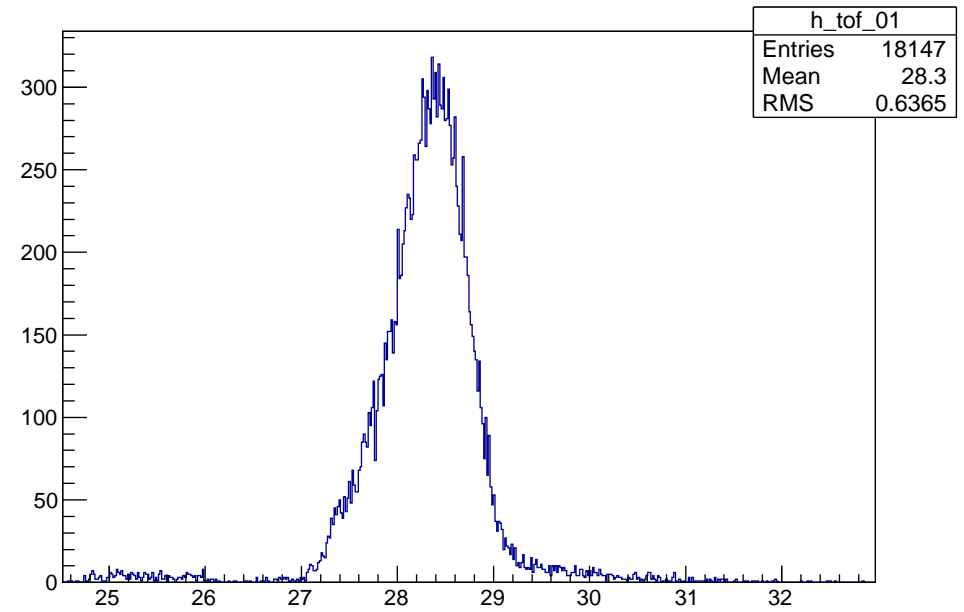

Run 7377

Run 7404

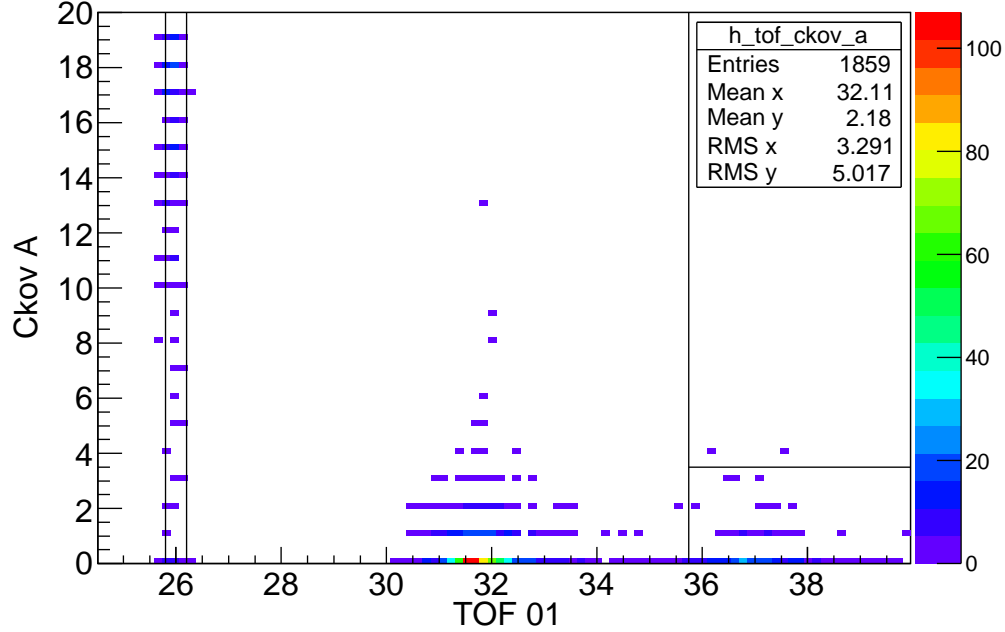

Run 7421

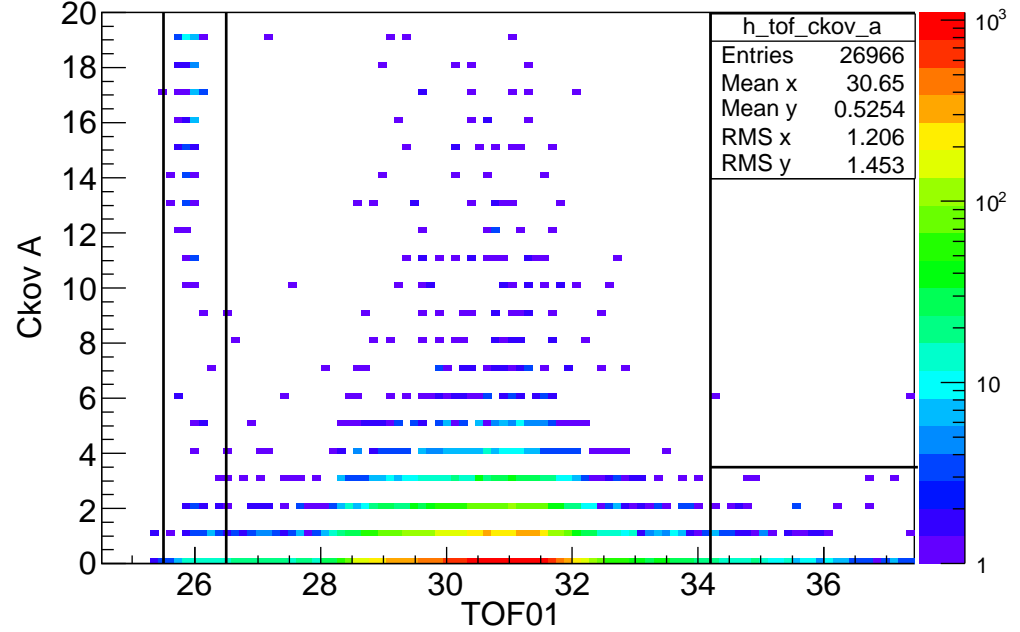

Adding CKOV (low-momentum)

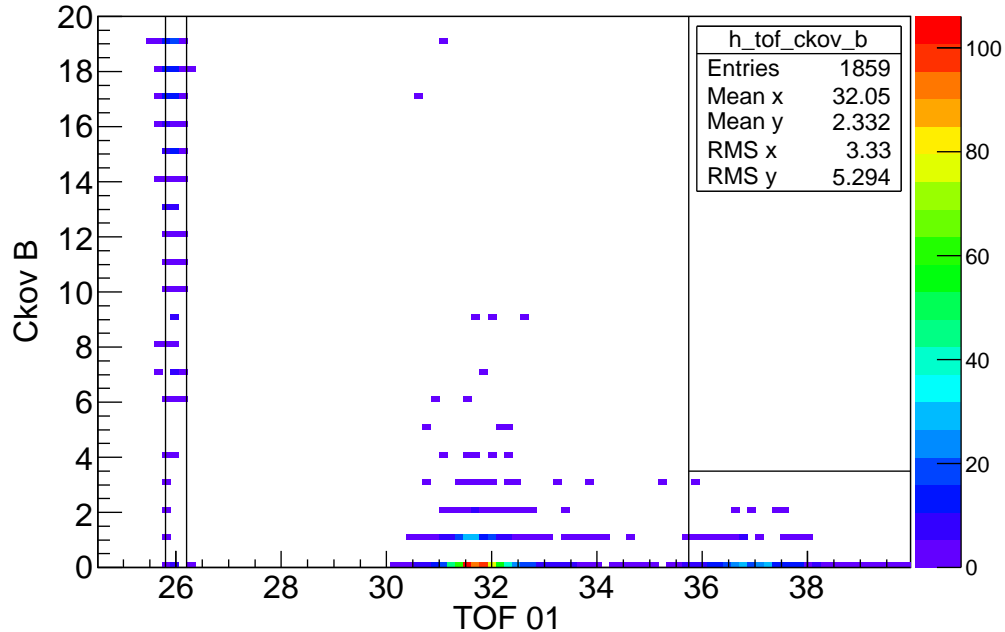

CKOV A vs. TOF

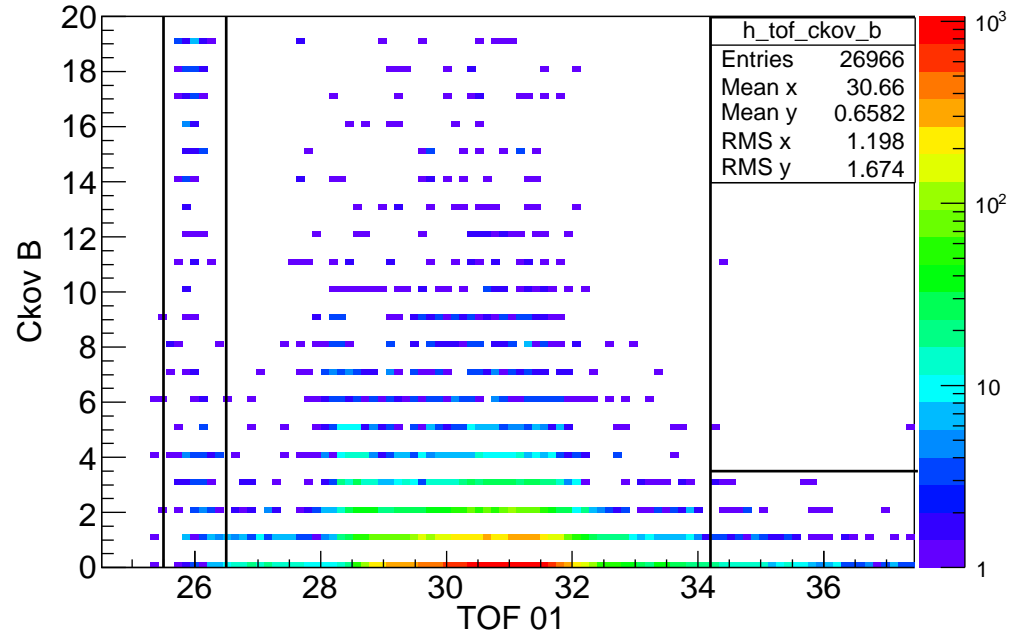

Run 7377

CKOV B vs. TOF

Run 7377

Adding CKOV (standard-momentum)
