

Target Note

Currently Included

- Brief summary of ISIS beam parameters & MICE target structure
- Surveys of ISIS beampipe/target, MICE BL, ISIS BL geometry
- Simulated MARS structure
- Beampipe materials
- MARS output pion distribution
- Agreement of MC / data from full MAUS reconstruction

To include?

- MC/data agreement for different energies – along with any changes resulting in MC from D1 field survey
- Selection cut criteria/dimensions in space
- Coordinate geoms from survey for reference for angular calc
