

# MICE Executive Board

## 25<sup>th</sup> October 2019; 13:00 BST

**Present:** Ken Long, Dan Kaplan, Chris Rogers, Chris Booth

**Apologies:** Paolo Franchini, Paul Kyberd, Steve Boyd, Alan Bross, Peter Garbinicius, Roumen Tsenov, Mark Palmer, Colin Whyte, Chris Booth

### Notes

#### 1. Introduction: KL

- Excellent level of detail, good work from everyone

#### 2. Minutes and Actions

- Minutes were accepted
- No actions

#### 3. Discussion of CM: All

- John Nugent noted a bug in his analysis during the collaboration meeting; clearly this needs working through
- Gavriil - needs PID above 200 MeV/c; discuss various different approaches
- Alan Young - much better analysis, seems to have crossed a threshold

#### 4. Software and Computing

- No issues beyond those noted above

#### 5. Meeting schedule

- Propose that MEMO and EB merge
- Aim for monthly analysis meetings
- Collaboration meetings twice per year
- VC and EB every second month at the analysis meeting or collaboration meeting
- Aim for analysis workshop monthly; but interleaved with VCs, etc

#### 6. Speaker's Bureau

- Paul Soler proposes we drop scattering analysis from "regular papers" until it is ready
- Consider requesting an oral following the publication in nature
- Consider other abstracts to be highlighted in an oral

- There was some discussion of muon collider status

### **7. Next Collaboration Meetings:**

- March 2020
- October 2020

### **8. Date of Next Meeting**

- Friday 6<sup>th</sup> December
- Friday 7<sup>th</sup> February

### **10. AOB**

- None

### **Summary of Actions**

No actions recorded
