Hi Chris. That sounds like an excellent idea. Let me know when and we can sort it out. In addition, if you have any feedback or concerns about the code in the meantime, please let me know.

You should be prepared to go through

- Data structure
- Class structure
- Individual algorithms where appropriate
- Tests and test coverage
- Documentation and documentation coverage

Feel free to pull in others if you like. I am likely away 5th/6th December - how does Friday 7th sound? Ian, would you be interested in joining?

#### #4 - 05 November 2012 11:39 - Taylor, Ian

Yes, I would like to join in. I can do the Friday no problem, but it would be good to know how long you normally budget for a review?

#### #5 - 05 November 2012 11:43 - Rogers, Chris

I guess for this a half day - probably afternoon, say 14.00 until 17.00.

#### #6 - 05 November 2012 15:33 - Dobbs, Adam

The 7th Dec works fine for me.
