

MAUS - Bug #1172

CheckVolumeOverlaps datacard causes MAUS to run in verbose mode

21 November 2012 10:53 - Rogers, Chris

Status:	Closed	Start date:	21 November 2012
Priority:	Normal	Due date:	
Assignee:	Rogers, Chris	% Done:	100%
Category:	Simulation	Estimated time:	0.00 hour
Target version:	MAUS-v0.4.1		
Workflow:	New Issue		
Description			
Looks like the verbose level never gets reset after entering verbose mode for CheckVolumeOverlaps G4 function call...
