Description			
<p>Another job that needs to be done - the run conditions spreadsheet is the master storage for all run conditions until we have Controls software in place to upload to CDB. In order to make the CDB complete, the run conditions data need to be uploaded to the CDB. Would it be possible for you to do this?</p> <p>The latest run conditions spreadsheet is attached - and if everything goes to plan (haha) should be that all this run data will be uploaded automatically by Pierrick in the future.</p>
