

Operations - Bug #1831

Not all panes on OnRec Firefox refresh themselves

13 March 2016 17:15 - Nebrensky, Henry

Status: Open	Start date: 13 March 2016
Priority: Normal	Due date:
Assignee: Boyd, Steven	% Done: 0%
Category: Control Room	Estimated time: 0.00 hour
Target version:	
Description micethin03 has a Firefox set up for shifters to look at Online Reconstruction plots, but not all of the plots are updated automatically. This can mean there are stale plots on the screen and shifters must memorise which of the 15+ plots need to be refreshed manually by pressing F5. See eLog entry 3664 and OnRec_20160313e.png The situation is made worse because many plots do not include the Run Number - see #1830 .
