<b>Description</b>			
Failure to build and there is no example log to compare with			

#### History

##### #1 - 05 March 2018 15:32 - Franchini, Paolo

Hi Paul,

do you have a working installation now?

##### #2 - 05 March 2018 17:36 - Kyberd, Paul

Switched to Fedora and it works. So closed for me

Does Craig have a working version on ubuntu or did you decide to swap to Fedora

##### #3 - 05 March 2018 17:39 - Franchini, Paolo

- Status changed from Open to Closed

- % Done changed from 0 to 100

Good.

He has working version with a cpp unit test failing and it's something I am investigating, but in principle the installation should be fine.
