

MAUS - Bug #381

MICEDetectorConstruction.cc pStepper always NULL before trying to find stepping type

19 March 2011 09:48 - Tunnell, Christopher

Status:	Closed	Start date:	19 March 2011
Priority:	Normal	Due date:	
Assignee:	Rogers, Chris	% Done:	100%
Category:	Simulation	Estimated time:	0.00 hour
Target version:	MAUS-v0.4.1		
Workflow:	Awaiting Merge		

Description

in 348, pStepper is set to NULL. However, a few lines later at 368 the value of pStepper is checked if it is null in an If then there is a long long list of elses that can never be seen. The whole 'if' statement in the first place doesn't do anything.

Suggestion: delete all the else's until we need them since I think they are dead relics of G4MICE (or we can always bring them back).

History

#1 - 10 May 2011 18:23 - Tunnell, Christopher

- Target version changed from MAUS-v0.0.1 to Future MAUS release

#2 - 10 November 2012 06:48 - Rogers, Chris

- Workflow set to Awaiting Merge

Fixed in Rogers

#3 - 12 November 2012 05:47 - Rogers, Chris

- Status changed from Open to Closed

- % Done changed from 0 to 100

Fixed in r837

#4 - 23 November 2012 08:50 - Rogers, Chris

- Target version changed from Future MAUS release to MAUS-v0.4.1
