

MAUS - Bug #838

Trunk broken by xboa errors

21 December 2011 14:16 - Rogers, Chris

Status:	Closed	Start date:	21 December 2011
Priority:	Normal	Due date:	
Assignee:	Rogers, Chris	% Done:	100%
Category:	Testing	Estimated time:	0.00 hour
Target version:	MAUS-v0.1.1		
Workflow:	Closed		
Description			
Tunnell added an "END_OF_RUN" spill type. This is breaking beam maker tests, which expect a primary in every spill. Probably most correct fix is to not expect primary in every spill in beam maker tests (it's running xboa against it, this is an xboa bug really).			

History

#1 - 21 December 2011 21:43 - Rogers, Chris

Trunk is building okay now I think - will take dev freeze for release before I go home...

#2 - 21 December 2011 21:50 - Rogers, Chris

- Status changed from Open to Closed
- % Done changed from 0 to 100
- Workflow changed from New Issue to Closed

Bulooooooooo

#3 - 22 December 2011 08:06 - Rogers, Chris

- Target version changed from Future MAUS release to MAUS-v0.1.1
